SUPPLEMENT TO
REPORT NO.

THIS IS UNEVALUATED INFORMATION

HYDROGRAPHIC DATA FOR CENTRAL AND SOUTH CHINA RIVERS

This data was supplied by the Water Conservation Department of the Central and South China regional government. The readings are usually taken each day at 0700 or 0800 hours. The figures are in meters, and indicate the water level above the datum lines indicated by the letters in column 2, as follows:

W, Wu-sung datum line.
H, hypothetical datum line adopted locally.
K, datum line adopted by the Kwangsi Survey Office.
C, datum line of the Chu Chiang Conservation Bureau.
